

Web Developer

The Columbian has an immediate opening for an experienced Web Developer. The Web Developer is responsible for the design, development, daily operations and maintenance for all onsite and hosted web sites. A qualified applicant will be able to prioritize and work on multiple web projects simultaneously. In addition to building and implementing new webpages and sites, the Web Developer will integrate existing sites with application back-ends and migrate legacy applications to the web. This position will be responsible for the availability, organization, security as well as performance for all web sites and web applications.

Qualifications

- Strong understanding of Internet programming languages and formats, including DJANGO, PHP, HTML, CSS, XML, RSS, AJAX, JavaScript/jQuery.
- In-depth knowledge of web technologies, protocols, and tools.
- Experience with W3C Code Validation, cross-browser compatibility, Database Design & Development and Version Control Systems.
- Comprehensive experience with structuring, developing, and implementing interactive web sites.
- Proven experience installing, upgrading, and maintaining web servers and associated operating systems.
- Knowledge of database development, including MySQL.
- Experience in gathering and analyzing business requirements.
- Ensure security of all web sites and related applications.
- Perform periodic web site audits.
- Monitor and report on Web site traffic and performance.
- College degree in computer science or related field preferred.
- 2-4 years experience preferred.

A qualified web developer will need to have a basic understanding of MS SQL, Python, payment gateways, ad serving platforms, SEO techniques, Social Media APIs, DNS Management, SSL Certificates. Other useful skills for this position include knowledge of Linux CLI, ColdFusion, proficient with Adobe Creative Suite and IIS & Apache administration.

Attributes

- Ability to effectively prioritize and execute tasks in a high-pressure environment.
- Highly self-motivated and directed.
- Excellent written and oral communication skills and excellent interpersonal skills
- Ability to conduct research into emerging internet technologies and programming languages.
- Proven analytical and problem-solving abilities.
- Strong customer service orientation.

We offer an excellent compensation package that includes full benefits, 401(k) plan, 22 paid days off annually and a casual family oriented work environment. If you have the listed qualifications and want to work with a group of dedicated, fun employees, send us your resume and cover letter with your salary requirements.
